

Idea to be acted out:

A: Obvious knowledge	B: Tacit knowledge	C: Emerging knowledge	D: Conclusions
<p>Discuss the situation: What do the performers say when a scene is paused or after the role-play, for example?</p>	<p>Observe the situation: What did the performers or spectators observe during the play?</p>	<p>Design the experience: How can the future experience be adapted so that it feels right for everyone involved?</p>	<p>Narrow down the solution format: What does this mean for the format of the solution being developed? Which functions are relevant?</p>

The most important aspects for further development of the solution:
